PRELIMINARY DRAFT BUDGET 2017

Board of Governors

Meeting in Copenhagen on 12-14 April 2016

1. General introductory remarks

A memorandum was transmitted to the schools on 27 November 2015, where the Schools were communicated the various parameters for the drawing up of the 2017 preliminary draft budgets, and in particular the salary adjustments for 2015 and 2016. In this memorandum, the need to prepare rigorous and realistic estimates was underlined. In particular, account had to be taken of the number of secondments as declared by Member States and of a realistic projection of the student population.

The Schools submitted their preliminary estimates for the 2017 budget to the members of the Administrative Boards before the meetings. Consolidation of the preliminary budget estimates **for the Schools' budgets** resulted in a total amount of €315 374 829, including the estimates for the Bureau of the Secretary General.

Between 14 January and 5 February 2016, the Administrative Boards of the 14 European Schools examined their respective budget estimates and drew up the preliminary draft budgets for the financial year 2017.

After the discussions of the Administrative Boards, the total amount of the preliminary draft budgets of the Schools amounts to € 305 128 271, which is € 11 747 406 higher than the 2016 Budget including Draft Amending Budget 1/2015 which has been proposed to the Budgetary Committee, or an increase of 4.0%.

2. Development of revenue

2.1 The **contributions of the Member States** in the form of national salaries will decline slightly. Compared with the appropriations of €53 415 856 estimated in 2016, a sum of €53 074 606 is budgeted for 2017. This decline corresponds to a slightly lower number of secondments foreseen in September 2016.

The special contributions from Germany and Italy will amount to €1 003 200 in 2017, exactly the same amount as in 2016. In relation to the total budget, the proportion of budget funding accounted for by the Member States will be 17.7%, down from 18.6% in 2016.

2.2 The **contribution from the EU Budget** to the Schools' budget and to that of the General Secretariat is € 188 027 018, up by €7 744 552 with respect to 2016. The proportion of funding contributed to the budget by the EU Budget is rather constant and rises to 61.6%, which represents a very slight increase with respect to 2016, when it is foreseen at 61.4%.

2.3 The **contribution of the European Patent Organisation** (EPO) to the Munich School's budget will amount to €21 498 075 and is up by €452 130 (= 2.1%) with respect to the 2014 figure of €21 045 945.

2.4 Revenue from financing agreements with public sector institutions and private sector companies continues to decline. For 2017, €12 607 223 are foreseen, as compared to 13 143 855 in 2015 (-4.1%)

2.5 Revenue from E.I.B. Group and European Stability Mechanism (ESM). These two institutions will begin contributing to the Budget of the two European Schools of Luxembourg. Their contributions amount to €5 172 931 and €87 506 respectively.

2.6 The revenue generated by **Parents contributions**, including school fees is foreseen to decline. In 2017, they will amount to €19 228 758, compared to €19 697 548 in 2016. The number of category III pupils is foreseen to slightly decline by 52 or 1.2% in 2017. This confirms the downward trend which has been observed since the beginning of the 2006-2007 school year.

2.7 Revenue from the imposition of a levy on basic salaries is estimated at €2 390 601 in 2017.

3. Development of expenditure

3.1 The overall level of appropriations under **Article 1.1 (Expenditure related to staff)** represents an increase with respect to previous years. In 2017, it will amount to €266 693 910, as compared to €256 093 203 in 2016 and to €248 444 851 which were implemented in 2014. The main reason for this increase is the salary adjustment of 2.4% in 2015 and 2.1% in 2016.

Additionally, the continued shortage of secondments in relation to needs, and the resulting increase in the appropriations foreseen for locally recruited teachers imply a further increase in the appropriations for this chapter:

3.1.1 The appropriations foreseen for **seconded teachers** amount to €158 244 257 represents an increase in absolute terms of 1.2%. Given the salary increases foreseen for 2016 of 2.1%, this amount represents an effective decline in real terms.

3.1.2 The appropriations for salaries of **locally recruited teachers** amount to €59 900 851, increasing from €54 129 881 budgeted for 2016 (+10.7%). This increase compensates the shortage of secondments and is necessary in order to satisfy the increasing need due to a greater student population of an additional number of 822 pupils with respect to 2016 (+3.2%).

3.1.3 For **administrative staff**, the budget increases to €38 288 735, up from €36 050 370 (+6.2). The increase is explained by the salary adjustments, the additional steps which have to be delivered according to the staff regulation and to the 15 new posts requested for 2017 in a number of schools and Office of the Secretary General.

3.1.4 Concerning remunerations for educational support, the 2016 Budget foresees € 10 260 067, representing an increase of €640 949 with respect to the amount budget for in 2016 (€9 619 118), or 6.7%.

3.2 Article 1.2: Other administrative expenditure. The appropriations requested amount to €31 283 803, which represents an increase with respect to the 2016 Budget of €1 756 380 or 6.0 %. The main component of this increase relates to the increase of security-related expenses, which can be found in the 'Buildings' items across schools. This item alone explains an increase of €1 348 572. Otherwise, the overall increase of other administrative expenditure would have been of 1.4%.

3.3 Chapter 2: Operational expenditure is composed of Pedagogical expenditure and Educational support. Both items combined amount to €7 150 558, up from €6 798 929 used in 2015.

4. Budgetary Committee

The Budgetary Committee was unanimously in favour of the proposal, taking into account:

- The document which was distributed during the session regarding the financial impact of creating six additional classes in the Berkendael site, thus bringing about additional costs of 464 000 EURO for the Budget of European School of Brussels I.
- The financial consequences of having approved point 11 of the agenda 'Service Regulation for Locally Recruited Teachers', namely savings of 334 000 EURO, to be distributed amongst all the schools.
- The financial consequences of the decision regarding the creation of new posts. The current proposal includes the financial cost of all proposed new posts. It also includes the additional discontinued ½ post of ICT technician (-11 281 EURO).

The new total Budget for 2017 when these three elements are taken into account is 305 246 990 EURO.

5. Proposal

The Board of Governors is requested to scrutinise the preliminary draft budgets of the Schools and of the General Secretariat for 2017 and adopt them.
